Re: Paving of Portal Road, Genwal Coal Company, Crandall Canyon Mine,  
ACT/015/032, Folder #3, Emery County, Utah

Dear Mr. Marshall:

The Division received your letter dated September 1, 1993 regarding the proposed paving of the Portal Road at the Crandall Canyon Mine. At this time it is not clear whether or not the letter was intended as an amendment to your MRP. The information provided seems to indicate that the paving project would not significantly affect the hydraulics at the mine. However, in order to proceed with the project, an amendment will need to be filed and approved through the Division. I am returning the information for your use and look forward to receiving your submittal. Please remember to include the required Permit Change forms. You may also want to address reclamation changes and reclamation costs associated with the paving project.

Please call if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Daron R. Haddock".

Daron R. Haddock  
Permit Supervisor
